Independent Auditor's Report

Board of Directors Kensington Police Protection and Community Services District Kensington, California

I have audited the accompanying basic financial statements of the governmental activities and each major fund of the Kensington Police Protection and Community Services District (District), as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2008, and the changes in its financial position thereof and the respective budgetary comparison for the general and special revenue funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the financial statements, the District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements — and Management's Discussion and Analysis — for State and Local Governments; GASB Statement No. 37, Basic Financial Statements — and Management's Discussion and Analysis — for State and Local Governments: Omnibus; GASB Statement No. 38, Certain Financial Statement Note Disclosures; and GASB Interpretation No. 6, Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements.

In accordance with *Government Auditing Standards*, I have also issued my report dated November 16, 2008, on my consideration of the District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

Independent Auditor's Report (continued)

The management's discussion and analysis and budgetary comparison information, as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

November 16, 2008

KENSINGTON POLICE PROTECTION AND COMMUNITY SERVICES DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

(Required Supplementary Information)

This discussion and analysis of the Kensington Police Protection and Community Service District's fiscal performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2008. Please review it in conjunction with the transmittal letter and the basic financial statements, which begin on page 7.

FINANCIAL HIGHLIGHTS

From the Statement of Net Assets

- Total net assets for the years ended June 30, 2008 and 2007 are \$6,015,041 and \$5,976,074, respectively. This is a 0.7% increase.
- Unrestricted net assets, the part of net assets that can be used to finance day-to-day operations, are \$1,956,797.

From the Governmental Fund Financial Statements

Our General Fund balance decreased by \$35,900.

• Property tax revenues (including special tax revenue for police services) for fiscal years ended June 30, 2008 and 2007 were \$1,886,000 and \$1,892,066, respectively. This is a 0.35% decrease. This would be indicative of turnover in the real estate market and continued high property values.

OVERVIEW OF FINANCIAL STATEMENTS

The District's basic financial statements are comprised of three components: government-wide financial statements, governmental funds financial statements, and notes to the financial statements. Required supplementary information in addition to the basic financial statements is also presented.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. There are two government-wide financial statements—the Statement of Net Assets and the Statement of Activities and Changes in Net Assets.

The Statement of Net Assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets, may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net assets changed during the fiscal year. Accrual of revenue and expenses are taken into account regardless of when cash is received or paid.

KENSINGTON POLICE PROTECTION AND COMMUNITY SERVICES DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Government-wide financial statements (continued)

As in a private-sector business, capital assets are depreciated, debt service is not a source of revenue, and compensated absences are expensed in the period earned.

Governmental funds financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities. The major differences between fund financial statements and government-wide financial statements are in the way debt proceeds, capital outlay, and compensated absences are recorded. Reconciliations between the two types of financial statements are found on page 7 using the adjustment column.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Supplementary information

In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules and a PERS schedule of funding progress.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets serve over time as a useful indicator of the District's financial position. In the case of the District, assets exceeded liabilities by \$6,022,103 as of June 30, 2008 and \$5,976,074 as of June 30, 2007. This number is comprised of two components:

	Jun	Ju	ne 30, 2007	
Investment in capital assets, net of debt	\$	4,058,244	\$	4,014,414
Unrestricted assets	·	1,956,797		1,914,054
Total net assets	\$	6,015,041	\$	5,928,468

Investment in capital assets consists of fixed assets less any related debt that is still outstanding.

Unrestricted assets are used to finance day-to-day operations, including debt service.

KENSINGTON POLICE PROTECTION AND COMMUNITY SERVICES DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

GOVERNMENTAL FUNDS ANALYSIS

The District's largest source of revenue is derived from property tax allocations. In 1978 the voters passed Proposition 13 and removed the ability of local agencies to set their own property taxes. The 1% maximum property tax rate is fixed by Article XIII A, § 1(a) of the California Constitution. The Legislature adopted statutes ("AB 8") that tell county auditor-controllers how to allocate the resulting revenues. This is unrestricted revenue and can be used for all District business.

The District's collection of Special Tax Revenue, another large source of revenue, is restricted to police activities. The current rate was established in 1997 after receiving voter approval in 1994.

In fiscal year ended June 30, 2008, the District was the beneficiary of the COPS Grant minimum allocation of \$100,000. The funds must be used for front line equipment/services and all expenditures have been approved by the District Board of Directors.

The largest expenditure of the District is salary and benefits, including PERS contributions. These are governed by current Memorandum of Understanding agreements negotiated between the District and represented and non-represented employees.

The other area of expenditures of significance is for services and supplies. That would include items such as vehicle maintenance, including the purchase of gasoline. This is the support structure for the police department.

Other reserved funds:

Reserved for KPPCSD Contractual Agreement—\$12,700 Reserved for compensated absences payable—\$91,887

COMMENTS ON BUDGET COMPARISONS

Actual revenues exceeded budgeted revenues by \$38,960. Of that \$28,225 is from interest income.

Actual expenditures were less than final budgeted expenditures by \$111,290, mostly due to decrease in salary and benefits expenses. There was unexpected attrition and no net cost for former police chief due to disability insurance reimbursement.

These two differences netted together equal a positive variance of \$150,250.

KENSINGTON POLICE PROTECTION AND COMMUNITY SERVICES DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2008

HISTORY AND ECONOMIC FACTORS

The Kensington Police Protection and Community Services District was formed as a Police Protection District in 1946 for the purpose of providing police services to the community of Kensington. In 1953, the District was changed to a Community Services District, per Government Code 61600, which enabled the District to provide park and recreation services, oversight to the solid waste contract, and the provision of police protection services.

In 1978, Proposition 13 was passed by California voters resulting in the implementation of AB 8 which set the formula used in property tax allocation for local government. The formula was based on prior years' budgets and the Kensington Police Protection and Community Services District had a history of very lean budgets.

In 1980, the Board of Directors for the District approved Resolutions 80-01 and 80-02, setting into motion a proposal for a special tax and a special election for the special tax. The original amount of the tax was \$45 per year for single family residential, \$90 per year for multiple unit residential, \$135 per year for commercial and institutional property and \$45 per year for miscellaneous improved property.

In 1984, the Board of Directors for the District approved Resolution 84-01 requesting the electorate approve an increase in the special tax to \$90 per year for single family residential, \$135 per year for multiple unit residential, \$180 per year for commercial and institutional property and \$90 per year for miscellaneous improved property.

In 1993, the Board of Directors for the District approved Resolution 93-04 requesting the electorate approve an increase in the special tax to \$210 per year for single family residential, \$315 per year for multiple units residential, \$315 per year for commercial and institutional, \$210 per year for miscellaneous improved property and \$63 per year for unimproved property.

In 1994, the Board of Directors for the District approved Resolution 94-13 requesting the electorate approve an increase in the special tax to \$300 per year for single family residential, \$450 per year for multiple units residential, \$450 per year for commercial and institutional, \$300 per year for miscellaneous improved property and \$90 per year for unimproved property. An increase of tax was voted and passed.

In 1997, the Board of Directors for the District approved Ordinance 97-01 setting the rates at the maximum allowed based on Resolution 94-13.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Police Chief Greg Harman.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of Kensington Police Protection and Community Services District (the "District") is presented to assist in understanding the District's financial statements. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

Organization and description of funds

The District was formed to provide police protection services and parks and recreation services. The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise the fund's assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The District also maintains two fiduciary funds: (1) Emergency Preparedness Fund (used for expenses in conjunction with the emergency radio network) and (2) Kensington Park Reassessment District 2004-1 Fund (used to account for special assessment funds, see Note 4).

Government-wide Financial Statements

The District's Government-wide Financial Statements include a Statement of Net Assets and a Statement of Activities and Changes in Net Assets. These statements present summaries of Governmental Activities for the District accompanied by a total column.

These statements are presented on an economic resources measurement focus and the *accrual basis* of accounting. Accordingly, all of the District's assets and liabilities, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Assets. The Statement of Activities presents changes in net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

The Government-wide Statement of Activities presents a comparison between expenses, both direct and indirect, and program revenues for each governmental program. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues. The comparison of program revenues and expenditures identifies the extent to which each program is self-financing or draws from the general revenues of the District.

Net assets should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net assets restricted for other purposes result from special revenue funds and the restrictions on their net asset use.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Separate financial statements are provided for governmental funds. Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Major individual governmental funds are reported as separate columns in the governmental fund financial statements. No major funds are aggregated and presented in a single column. The District had no major funds in the fiscal year ended June 30, 2008.

Governmental Fund Financial Statements

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. Accompanying schedules are presented to reconcile and explain the differences in net assets as presented in these statements to the net assets presented in the Government-wide Financial Statements.

All governmental funds are accounted for on a spending or current financial resources measurement focus and the *modified accrual basis* of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the District, are intergovernmental revenues, investment earnings and charges for services. Expenditures are generally recognized when incurred under the modified accrual basis of accounting.

The District has only two funds in fiscal year 2008, the General Fund and Capital Project Fund.

General Fund—the General Fund is the operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund—The Debt Service Fund is used to account for financial resources to be used or the retirement of debt. The Kensington Park Reassessment Bond 2004-1 issued in June 2004 in defeasance of the 1994 special assessment bonds has been determined to be an Agency Fund since the District is not obligated to repay the debt. The balance in the debt service fund has therefore been transferred to the Kensington Park Reassessment District 2004-1 Fund (see Note 4) and is not part of fiscal year 2008 presentation.

Capital Projects Fund—The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgets and budgetary accounting

The District follows these procedures in establishing the budgetary data reflected in the basic financial statements:

- During the month of May, the General Manager/ Chief of Police submits to the Board of Directors a
 preliminary operating budget. During the month of June the General Manager/Chief of Police submits
 to the Board a Directors a proposed operating budget for the fiscal year commencing the following July
 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. The budget is enacted through a motion to adopt the Budget.
- 3. Formal budgetary integration is employed as a management control device during the fiscal year for the General Fund and Capital Projects Fund.
- 4. Budgets for the General Fund and the Capital Projects Fund are adopted on a basis consistent with accounting principles generally accepted in the United States (US GAAP).

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund and the Capital Projects Fund. All appropriations lapse at fiscal year end.

Cash and investments

Cash includes amounts in demand deposits as well as short-term investments. Investments are carried at market value.

Accounting pronouncements

Effective July 1, 2003, the District adopted the provisions of GASB No. 34, issued in June 1999; GASB No. 37, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments: Omnibus ("GASB No. 37") issued in June 2001 and GASB No. 38, Certain Financial Statement Disclosures ("GASB No. 38") issued in June 2001.

The Governmental Accounting Standards Board Statement No. 34, "Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments" establishes a new financial reporting model for state and local governments. This new model requires that at a minimum the basic financial statements of a government include: (1) management's discussion and analysis (MD&A) as a component of required supplementary information (RSI), (2) both government-wide financial statements and fund financial statements, (3) notes to the financial statements and (4) RSI other than MD&A.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated absences

District employees are entitled to certain compensated absences based on their length of employment. Payable for compensated absences is \$91,887 at June 30, 2008.

Fund equity reservations and designations

Reservations and designations of the ending fund balance indicate portions of fund balance not appropriable for expenditures or amounts legally segregated for a specific future use.

Statement calculations and use of estimates

Due to rounding, column and row calculations may approximate actual figures. Approximations may result when decimal places are eliminated to present whole numbers.

The preparation of financial statements in conformity with accounting principles generally accepted in the Untied States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenditures during the reporting periods. Actual results could differ from those estimates.

Reclassification

Certain accounts in the prior-year financial statements have been reclassified to conform to the presentation in the current-year financial statements.

NOTE 2—CASH AND INVESTMENTS

The District maintains most of its cash in the County of Contra Costa treasury. Balances are stated at cost, which is approximately market value.

The District maintains a cash and investment that is available for use by all funds. Investments made by the District are summarized below. The investments that are represented by specific identifiable investment securities are classified below according to credit risk:

Category 1—Investments that are insured or registered, or for which securities are held by the District or its agent in the District's name.

Category 2—Uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the District's name.

Category 3—Uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the District's name.

NOTE 2—CASH AND INVESTMENTS (Continued)

A summary of the District's cash and investments at June 30, 2008 follows:

		rrying alue		Market Value
Governmental Funds	+		3 	0
Category 1:				
Cash in Checking Accounts	\$	3,725	\$	3,725
Petty Cash		100		100
	16.	3,825		3,825
<u>Uncategorized:</u>				
County Treasury	2	2,046,690		2,046,690
	2	2,050,515	80.0807.04867.0	2,050,515
Fiduciary Funds				
Category 1:				
Cash in Checking Accounts		902		902
Uncategorized:				
County Treasury	-	243,486		243,486
		244,388		244,388
Total Cash	\$ 2	2,294,903	\$	2,294,903

The disposition of cash and investments by fund is as follows:

General Fund	\$ 1,927,726
Capital Projects Fund	 122,785
	2,050,511
Emergency Preparedness Fund	902
2004-1 Park Reassessment Bond Fund	243,486
	\$ 2,294,899

The District's cash fund in the County Treasury is not categorized by risk category because the District's share is not evidenced by specifically identifiable securities.

NOTE 2—CASH AND INVESTMENTS (Continued)

Deposits

The California Government Code requires California banks and savings and loan associations to secure a local governmental agency's deposits by pledging government securities as collateral. The market value of pledged securities must equal at least 100% of the agency's deposits. California law also allows financial institutions to secure an agency's deposits by pledging first trust deed mortgage notes having a value of 150% of an agency's total deposits. The agency may waive collateral requirements for deposits, which are fully insured up to \$100,000 by federal deposit insurance.

NOTE 3—CAPITAL ASSETS

The District's capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair market value on the date donated. Capital assets are recorded at cost and depreciated over their estimated useful lives. Depreciation is charged to governmental activities by function.

Depreciation of capital assets is charged as an expense against operations each year and the total amount of depreciation taken over the years, accumulated depreciation, is reported on the Statement of Net Assets as a reduction in the book value of capital assets.

Depreciation of capital assets in service is provided using the straight-line method, which means the cost of the asset is divided by its expected useful life in years, and the result is charged to expense each year until the asset is fully depreciated. The District has assigned the useful lives listed below to capital assets:

Vehicles 5 years
Furniture and fixtures 5 years
Building and improvements 20-40 years
Machinery and equipment 5-10 years

NOTE 3—CAPITAL ASSETS (continued)

A summary of changes in general fixed assets follows:

	Balance 6/30/07	Reclass	Additions	Retirements	Balance 6/30/08
Non-Depreciable Assets					0/20/00
Land	\$ 2,808,347	\$	- \$ -	\$ -	\$ 2,808,347

NOTE 4—SPECIAL ASSESSMENT DEBT

Kensington Park Reassessment District 2004-1 Refunding Bonds

2004 Limited	Obligation	Improvement	Jui	ne 30, 2007	Borre	owings	Payments	_Ju	ne 30, 2008
Bonds	5	1	\$_	1,707,116	\$		\$ 94,200	_\$	1,612,916
		,	\$	1,707,116	\$		\$ 94,200	\$	1,612,916

NOTE 4—SPECIAL ASSESSMENT DEBT (continued)

The original 1994 Limited Obligation Improvement Bonds were issued pursuant to the provisions of the Improvement Bond Act of 1915 to finance costs of acquisition of land to be used as a park and installation of certain recreational improvements. The bonds are limited obligations of the District and are equally and ratably secured by unpaid assessments on certain parcels of property located within the Kensington Park Assessment district. The Kensington Park Assessment District was created by the District pursuant to the Landscaping and Lighting Act of 1972 specifically to finance the park landscaping and lighting project. The unpaid assessments represent fixed liens on each assessed parcel. Annual installments of the unpaid assessments together with interest thereon, sufficient to meet the scheduled debt service, are included in the tax bills for the assessed properties and the receipts are deposited into a redemption fund used to pay interest and principal on the bonds as they come due. The District is in no way liable for the repayment of the improvement bonds. The District is only acting as an agent for the property owners in collecting the assessments, forwarding the collections to bondholders, and initiating foreclosure proceedings.

On June 17, 2004, the District issued \$1,868,600 of 2004 Limited Obligation Improvement Bonds for the purpose of refunding the \$2,050,000 of outstanding 1994 Limited Obligation Improvement Bonds. The refunding took advantage of lower interest rates which were available and resulted in reductions in debt service requirements over the life of the new debt. The net proceeds of \$1,868,600 from these bonds were transferred to a trustee and placed in an irrevocable trust to redeem the 1994 Limited Obligation Improvement Bonds. These funds were invested in U.S. government securities to provide for the redemption price and interest through the call date. The 2004 bond bears annual interest at a fixed rate of 4.25%. The bond was issued as a fully registered note in a single denomination of \$1,868,600. Interest on the bond becomes payable commencing March 2, 2005, and semi-annually thereafter on each September 2 and March 2 until maturity. The bond maturity date is September 2, 2020.

The following funds have been created: (1) Reserve Fund, established in the initial amount of \$93,430 from the bond proceeds; (2) Redemption Fund, established to collect all payments of principal and interest installments on the assessments; (3) cost of issuance fund, established to pay issuance costs and (4) administrative expense fund, established to reimburse payment of administrative expenses. The District's liability to advance funds to the Redemption Fund in the event of delinquent installments shall not exceed the balance in the Reserve Fund.

As of June 30, 2008, future debt service payments were as follows:

Fiscal year ended June 30,	Principal	Interest	Total
2009	93,097	66,570	159,667
2010	101,987	62,425	164,412
2011	105,483	58,016	163,499
2012	108,987	53,459	162,446
2013	112,176	48,759	160,935
Thereafter	1,091,186	194,361	1,285,547
	\$ 1,612,916	\$ 483,590	\$ 2,096,506

Current Portion of Interest: \$66,570

Current Portion of Principal: \$93,097

NOTE 5—DEFINED BENEFIT PENSION PLAN

PERS plan description

The District has a defined benefit pension plan (the "Plan") which provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The Plan is part of the Public District portion of the California Public Employees Retirement System (CalPERS), an agent multiple-employer plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the state of California. A menu of benefit provisions as well as other requirements is established by State statues within the Public Employees' Retirement Law. The District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through board action. CalPERS issues a separate comprehensive annual financial report. Copies of the report may be obtained from the CalPERS Executive Office at 400 P Street, Sacramento, CA 95814.

Funding policy

Active plan members in the Plan are required to contribute 9% of their annual covered salary. The District "picks up" the tax deferred contributions required of District employees on their behalf and for their accounts. The District is required to contribute the actuarially determined amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. An employer contribution of 29.828% was required for fiscal 2007-2008. The contribution requirements for the plan members are established by State statute. The employer contribution rate is established and may be amended by CalPERS. For 2008/2009, the required employer contribution rate is 28.766% and 2009/2010 is 30.551%.

Annual pension cost

For the fiscal year ended June 30, 2008, the required contributions amounted to \$256,758. Of this amount, \$232,932 was contributed by the District on behalf of the plan members. The District's required contribution for fiscal year ended June 30, 2008 was determined as part of the June 30, 2007 actuarial valuation using the entry age normal actuarial cost method with the contributions determined as a percent of pay. The actuarial assumptions included: a) an 7.75% investment rate of return (net of administrative expenditures); and b) projected salary increases of 3.25% to 14.45%. Both a) and b) include an inflation component of 3% and anticipated payroll growth of 3.25%. The actuarial value of the plan's assets were determined using a technique that smoothes the effect of short-term volatility in the market value of investments over a rolling period, depending on the size of investment gains and/or losses.

Three-year trend information for the Plan is as follows:

Fiscal Year Ending	Annual Pension Cost (APC)	% of APC Contributed	Net Per Obliga (Asse	tion
2006	294,543	100%	\$	-
2007	213,422	100%		_
2008	230,734	100%		-

NOTE 6—PAYABLE TO KENSINGTON FIRE PROTECTION DISTRICT (KFPD)

In July 1998, the District entered into a lease agreement as a lessee to occupy office space from KPPCSD for a ten-year period through June 30, 2009. The agreement provides for the following costs to be paid by the District:

(1) The District will reimburse KFPD \$127,000 of the total building renovation costs incurred by KFPD to renovate its building. The obligation is payable in semi-annual installments (January 1 and July 1) of \$6,350 interest-free over a ten-year period expiring June 30, 2009. If the KFPD terminates the lease the balance of the obligation from the District shall be forgiven. If the District were to terminate the lease the balance of the obligation would become immediately due and payable. At June 30, 2008, the payable to KFPD is as follows:

(2)

	_Jun	e 30, 2007	Re	payments	Jun	e 30, 2008
Payable to						
KFPD	\$	25,400	\$	12,700	\$	12,700

The \$12,700 repayment is included in Police Principal Expense in the accompanying Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances.

(3) Annual maintenance fee of \$3,787, payable in semi-annual installments of \$1,894. KFPD deposits the payments into a separate bank account. Any unused amounts at fiscal year-end are reported as deposits receivable from KFPD. At June 30, 2008, deposits receivable from KFPD were \$3,051. Principal payments for last year were \$12,700.

NOTE 7—FUND EQUITY RESERVES AND DESIGNATIONS

Fund balance consists of reserved and unreserved amounts. Reserved fund balance represents that portion of a fund balance which has been appropriated for expenditure or is legally segregated for a specific future use. The remaining portion is unreserved and is classified as designated or undesignated. Fund balance reserves and designations at June 30, 2008 are as follows:

<u>Fund balances</u> Reserved	Gene		Capital Projects		Total
Compensated Absences	\$ 9	1,887 \$	=	\$	91,887
KFPD Agreement	13	2,700	-		12,700
Total Reserved	10-	4,587		11222	104,587
Unreserved and Designated for					
Park Expenditures	1,72	8,820	123,390		1,852,210
Total Unreserved and Undesignated	1,72	8,820	123,390		1,852,210
Total Fund Balance	\$1,833	3,407 \$	123,390	\$	1,956,797

NOTE 8—INSURANCE POOLS

Special District Risk Management District

The District is a member of the Special District Risk Management District ("SDRMA"). SDRMA was organized to provide certain levels of liability insurance coverage, property insurance coverage, claims management, risk management services and legal defense to its participating members. The financial results of SDRMA are not included in the accompanying basic financial statements because the District does not have oversight responsibility.

SDRMA provides the District with property and general liability coverage to the limits as set forth in the agreement. The annual member contribution was \$26,011 for fiscal 2007 coverage. Members are subject to dividends and/or assessments in accordance with the provisions of the Joint Powers agreement. At June 30, 2008, SDRMA could not confirm the status of any incurred but not reported ("IBNR") claims.

NOTE 8—INSURANCE POOLS (Continued)

The Special Districts Workers Compensation District ("SDWCD") was formed by an agreement between certain public agencies to provide workers' compensation coverage. SDWCD is governed by a Board of Directors, which is comprised of officials appointed by member agencies.

The District currently reports all of its risk management activities in its General Fund. Claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated.

The District maintains a workers' compensation fund, which is self-insured for the first \$100,000 of loss per accident. Excess coverage is purchased from an outside insurance carrier up to statutory limits.

NOTE 9—EXPLANATION OF DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET ASSETS

Total fund balance of the District's governmental funds differs from the net assets of governmental activities reported in the statement of net assets primarily as a result of the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheet. When capital assets (land, building, and equipment) that are used in governmental activities are purchased or constructed, the costs of those assets are reported as capital outlay expenditures in the governmental fund. However, the statement of net assets includes the capital assets, net of accumulated depreciation, among the assets of the District.

Differences	Balance June 30, 2008
Cost of capital assets Less: Accumulated depreciation	4,759,545 703,000
Net capital assets	4,056,545
Net difference	\$ 4,056,545

NOTE 10—EXPLANATION OF DIFFERENCES BETWEEN THE GOVERNMENTAL FUND OPERATING STATEMENT AND THE STATEMENT OF ACTIVITIES

The net change in fund balance for the governmental funds differs from the "change in net assets" as a result of the long-term economic focus of the statement of activities versus the current financial resources focus of the general fund. When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as capital outlay expenditures in the general fund. Also, when capital assets are sold, the resources received are reported as proceeds from sale of capital assets in the respective fund. However, in the statement of activities, the cost of those assets purchased or constructed is allocated over their estimated useful lives and reported as depreciation expense. The resources received from the sale of capital assets offset against the net carrying value of the assets sold and reported as a gain or loss in the statement of activities. As a result, the fund balance decreased by the amount of financial resources expended and increased by the amount of financial resources received, whereas net assets decreased by the amount of depreciation expense on equipment items during the year and increased (decreased) by the amount of net gain (loss) on disposal of capital assets.

Differences	Balance June 30, 2008		
Capital Outlay Less: Depreciation Expense	\$	184,946 75,870	
Net difference	\$	109,076

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Directors Kensington Police Protection and Community Services District Kensington, California

I have audited the basic financial statements of the Kensington Police Protection and Community Services District (District), as of and for the fiscal year ended June 30, 2008, and have issued my report thereon dated November 16, 2008. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing my audit, I considered the District's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatements, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results or my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management and others within the District. This is not intended to be and should not be used by anyone other than these specified parties.
